Product Information

Want to add forward led lighting to your Westin bull bar, winch or looking for a custom fit? Westin's powerful LED spotlights are the perfect solution. Westins circuitry is designed in-house to be more powerful, more efficient and to generate less heat. Which means you can flood the trail with LED light extending your off-road fun. Our LED Light Bar housings feature heat sinks designed to keep inside temperatures at a minimum allowing our LEDs to run cooler and brighter. Which means you can rest easy knowing your LED light bar won't quite on you. We then give our housings a high-quality powder-coat and finish them off with a custom-molded rubber seal and an unbreakable scratch resistant lens. Which means they can stand firm against environmental attacks. Mounting hardware included. * Featuring Epistar 3 Watt LED chips * Available in 6 inch, 10 inch, 20 inch, 30 inch, 40 inch and 50 inch lengths * Features 6063 extruded aluminum housing with custom over-sized heat sinks * 50,000+ h
