Product Information

Looking for increased visibility while docking your boat? Wish your boat's deck was illuminated better at night? Marine Sport® Lighting's MS-4CREE-35W LED auxiliary spots are the perfect solution for providing a blast of light wear you need it, when you need it.

Marine Sport Lighting's 4.3" round auxiliary lights feature high power CREE diodes producing 5,000 lumens of output power which means extended family activity time on the water and increased safety docking your boat when the fun is done.

The MS-4CREE-35W's is fastened with a rubber grommet and injection sealant to provide IP67 rated defense against water intrusion and environmental attack which means you can land that fish no matter the weather conditions.

We also coated the spotlight with a durable powder coat and additional anti-corrosive sealant for extra protection in saltwater environments. Simple put, these lights will have your back wherever adventure takes you.

Marine Sport® Lighting is so convinced that we provide the highest quality marine grade led products around, that we're willing to stand behind the MS-4CREE-35W spotlight with a
