Made In CN Warranty 1 year Lumens Beam Pattern

Product Information

Adding underwater lighting to your vessel has never been easier. One small cable hole and a few mounting screws is all it takes. Race Sport Lighting's Surface Mount Underwater LED lights compete with other LED models costing over twice as much. They boast a corrosion-proof, solid stainless steel body with a polycarbonate lens that is resistant to marine growth and does not require bonding or painting. Overheating is not a problem, due to the active thermal management system which manages the unit's light output based on temperature. These lights can be installed below the waterline, and are ideal for transom, hull-side, and many other locations. Compact and with a very slim profile, they can be installed on any size vessel. Our Round 6x1W Marine Lights have the following features:

- Available in 4 output colors (Red, Green, Blue, & White)
- Surface mount for fast, easy installation.
- Completely self-contained, fully sealed, fully waterproof, and fully submersible
- One piec
