Product Information

The NEW Marine Sport LED Light Bars are a revolutionary way to contour light bars and high power light output to any surface area with a straight or curve appeal. The light bars are designed for Marine use, but can also be used in Automotive, UTV, ATV, Industrial applications where a white colored shell is desired. To make these bars even more attractive, Race Sport uses a white facing tile instead of the common chrome tiles to give this a TRUE "WHITE OUT" look! We use durable and long lasting CREE 3-watt diodes in these bars and recess them in our long throw opticals for a maximum performance and light output! . Operating Voltage: 9-30V DC . Color Temperature: 6000K . Lens material: PC . Optional Beam: Flood / Spot / Combo Waterproof Rate to 1m: IP67 . Optional Color: Black . Material: Aluminum alloy painting . Mounting Bracket: Alu firm bracket . 50000+ hours life-span 50.25in End-to-End 48.0in Lens Width Area 51.50in Mounting Hole to Mounting Hole 3.0in Height 3.5in Depth Note
