Product Information

This Wire and Switch Harness from Race Sport Lighting ensures consistent power in your LED Light System and features protected wiring. This harness has 1-Output Deutsch Connection to power a light bar or other Auxiliary light with regulated power and ground. The relay pack in the middle of the harness basically takes inconsistent voltage inputs from batteries of different vehicles, and stabilizes the Output voltage to your light system for a brighter, crisper, and more reliable light output. • Can be used on any light bar sizes up to 52 inches. Consult our tech department for light bars larger than 52 inches. • Includes a switch with on/off position that you control from inside your vehicle • Universal for various vehicles. Some vehicles may require additional wire extensions. • 40-Amps Relay for High Power LED Systems
