**Product Information**

The new LL Series light bars from Race Sport Lighting provide up to over 1-mile of light range down the road for extreme off roading safety generated by our long range laser illumination light scope in the middle of the light bar. Which means that you can see farther down the path in any off-road adventure, or situation where your work truck is moving loads at night down dark never ending roads with no street lights, therefore getting your precious cargo to the point of destination safer and allowing you 10 times as much stopping distance to obstructions. The Laser + LED light bars have the high power LED diodes you trust in the opticals for the wide range, PLUS a Laser light scope in the middle for a very focused straight beam that travels as far as 1.2 miles down the road or path. This is the 1st generation of premium dual function laser light bars released by Race Sport lighting as we continue to strive to provide functional light bars that people can use in their adventures and tr
