Product Information

Race Sport Lighting's Universal RGB LED add-on Bluetooth controller gives you smart phone capability for all of your favorite Race Sport RGB lights!

Use this Bluetooth controller to control multiple zones of RGB LED strips that will be linked and controlled via a Bluetooth enabled smartphone device (One controller required per zone). RGB strips can be set to one of 12 different preset colors or an infinite amount using the color wheel. The controller can also adjust light patterns, speed, fading, brightness, play/pause functions, sound activation, and the ability to turn the system ON and OFF. The synchronization function allows a single smartphone to operate one or more user configurable controllers as well. Maximum load is 16 feet of continuous strip & 50ft. of non-continuous strip segments per controller. Can only be used with a Bluetooth enabled smartphone or tablet, standalone remotes are not available. Use the free app 'Happy Lighting' on Android or iOS.

Part # 1005124 Est. Labor
Part Type ID 49762
Gross Weight 0.100 Width 3.000
Net Weight 0.100 Height 1.000
DIM Weight 0.092 Depth 4.250
