Product Information

The NEW Marine Sport LED Light Bars are a revolutionary way to contour light bars and high power light output to any surface area with a straight or curve appeal. The light bars are designed for Marine use, but can also be used in Automotive, UTV, ATV, Industrial applications where a white colored shell is desired. To make these bars even more attractive, Race Sport uses a white facing tile instead of the common chrome tiles to give this a TRUE "WHITE OUT" look!

We use durable and long lasting CREE 3-watt diodes in these bars and recess them in our long throw opticals for a maximum performance and light output!

- . Operating Voltage: 9-30V DC
- 10 watt OSRAM
- . Color Temperature: 6000K
- . Lens material: PC
- . Optional Beam: Combo
- . Waterproof to 1M Rate: IP67
- . Optional Color: Black
- . Material: Aluminum alloy painting
- . Mounting Bracket: Alu firm bracket
- . 50000+ hours life-span
