Made In China Warranty 1 year Lumens 70-380 lm Beam Pattern Flood

Product Information

Adding underwater lighting to your vessel has never been easier. One small cable hole and a few mounting screws is all it takes. Race Sport Lighting's Surface Mount Underwater LED lights compete with other LED models costing over twice as much. They boast a corrosion-proof, solid stainless steel body with a polycarbonate lens that is resistant to marine growth and does not require bonding or painting. Overheating is not a problem, due to the active thermal management system which manages the unit's light output based on temperature. These lights can be installed below the waterline, and are ideal for transom, hull-side, and many other locations. Compact and with a very slim profile, they can be installed on any size vessel.

- Our round 3x3W Marine Lights has the following features
• Surface mount for fast, easy installation.
• Completely self-contained, fully sealed, fully waterproof, and fully submersible
• One-piece stainless steel design
• IP68 Waterproof
• 12-24V DC
• .75amp @12VDC
• Two-Year Warranty (70-380 Lumens)
