Product Information

Introducing the Race Sport® Lighting GEN4® LED Headlight Kit

Introducing the long-awaited Race Sport® Lighting GEN4 LED headlight kit. These kits are packed with patent pending features including a fan-less “rope” heat-sink design, “ratchet” style clock-able base, and the brightest output of an LED headlight kit our company has ever offered (Over 2,700 LUX.)

Patented Fan-less “Rope” Heat-sink Design

Our patented (US patent 11,054,127; 10,801,714) fan-less “rope” design allows the GEN4® LED headlight kit to be installed where space is limited, and it also keeps the high-powered diodes cool. The copper “rope” heat-sinks can be manipulated to fit in the tightest compartments yet maintaining the correct amount of heat dissipation to keep this kit performing day after day.

Patented 360° Clock-able Base

The GEN4® LED headlight's 360° clock-able base allows for proper mounting orientation to maximize light output and deliver overall intended performance. Stop getting

Part Type ID	12571	Est. Labor	1.00
Gross Weight	2.000	Width	8.250
Net Weight	2.000	Height	2.500
DIM Weight	1.113	Depth	7.500
